🔗 Summary

Senior at UIT who enjoy writing code to solve problem. Having worked with multiple languages and frameworks in the past, I have a good understanding of OOP, data structure and programming logic and can generally apply it everywhere when learning new things. Technologies used: `React`, `SCSS`, `Typescript`, `Webpack`, `Flutter`, `Git`. Depending on the project's requirements, I can seek to learn new technologies fast and quickly integrate into the new team's workflow. I am also a moderator on Stackoverflow with over 2k reps and an active contributor in AgGrid topic.
